Our guiding vision is binding for our conduct towards each other, our customers, suppliers, business partners, and the general public. It shapes the perception of the entire company.

VETTER is a modern company with tradition.

Our crane systems and services stand for reliability, availability, and quality. All our efforts are focused on the needs and satisfaction of our customers.

We are a trustworthy partner for our customers and suppliers and strive for a long-term collaboration.

When developing new products, we are guided by the wishes and needs of our customers.

We are an attractive employer. We live our social responsibility and aspire to long-term retention of our employees.

We at VETTER wish to win as a team and know that each individual contributes to the success through their commitment, attitude, and action.

In our interaction with one another and others, we foster a culture of openness, tolerance, respect and politeness as well as fairness and trust.

We firmly believe that good training and qualifications boost not only employee satisfaction and efficiency but also the company success.

The basis of our enduring success is our experience and continuous investment in employees and company.

VETER - SHORT & SWEET
- Family-owned company with more than 125 years of experience
- 230 employees
- Over 100,000 slewing jib cranes produced according to the VETTER system worldwide
- 13,000 sqm of production area
- Service network throughout Germany
- Approvals by SLV, Germanischer Lloyd, GOST, ATEX, etc.

WE ARE VETTER

Our guiding vision is looking for our mindset towards each other, our customers, suppliers, business partners, and the general public. We always pay attention to the needs of our customers.

WE LIVE AND BREATHE CRANES

The company, the people, the products

WE DELIVER

SOLUTIONS

The VETTER Krantechnik GmbH Company is a leading manufacturer of slewing jib cranes, PROFI gantry crane systems, and ROTOMAX® load turning devices. In the newly built crane factory in Haiger/Germany, we manufacture cranes using ultra-modern production technologies that comply with international standards and perform a variety of tasks in different industries all over the world. The product range also includes gradients and complete solutions such as for oil and gas, offshore and mining. VETTER thus offers the largest range of cranes worldwide!

Highly trained employees use their expertise and motivation daily to ensure that our products are of high quality for the customer. We offer intensive training programs for new employees and qualify our existing staff. Thus, you can be assured that you benefit from the highest possible quality and reliable service.

WE EMBODY

TRUST
Our guiding vision is binding for our conduct towards each other, our customers, suppliers, business partners, and the general public. It shapes the perception of the entire company.

**VETTER is a modern company with tradition.**

Our crane systems and services stand for reliability, availability, and quality. All our efforts are focused on the needs and satisfaction of our customers.

We are a trustworthy partner for our customers and suppliers and strive for a long-term collaboration. When developing new products, we are guided by the wishes and needs of our customers.

We are an attractive employer. We live our social responsibility and aspire to long-term retention of our employees.

We at VETTER wish to win as a team and know that each individual contributes to the success through their commitment, attitude, and action.

Almost everything is possible – having the world’s largest range of slewing jib cranes, we supply international customers in various industries. For every customer we have the right crane solution – from column-mounted and wall-mounted slewing jib cranes through the smooth-running crane with aluminium jib arm to mobile slewing jib cranes. Thanks to our comprehensive range of accessories, the slewing jib cranes can be adapted to individual requirements.

**KEY DATA FOR STANDARD SLEWING JIB CRANES**
- Capacity from 80 kg to 20 t
- Outreach up to 12 m

When presented with complex requirements and when special features are desired, we develop a suitable crane solution. For maximum efficiency, capacities up to 10 t can be expanded to 20 t or in batches.

**INDIVIDUAL SLEWING JIB CRANE SOLUTIONS**
No task is impossible, no application area is too difficult. For special requirements, we adapt our standard crane solutions. From the first loading belt up to the last one, you can influence the entire system, from lifting platforms, temp. stores, or mining.

**STANDARD SLEWING JIB CRANES**
set your production in motion

**SPECIAL CRANES**

tackle every task

### Standard Slewing Jib Cranes

Almost everything is possible – having the world’s largest range of slewing jib cranes, we supply international customers in various industries. For every customer we have the right crane solution — from column-mounted and wall-mounted slewing jib cranes through the smooth-running crane with aluminium jib arm to mobile slewing jib cranes. Thanks to our comprehensive range of accessories, the slewing jib cranes can be adapted to individual requirements.

**Key Data for Standard Slewing Jib Cranes**
- Capacity from 80 kg to 20 t
- Outreach up to 12 m

### Special Cranes

When presented with complex requirements and when special features are desired, we develop a suitable crane solution. For maximum productivity in a wide variety of production situations, we provide our customers with individually customized gantry crane systems with capacities from 80 kg to 10 t, spans of up to 15 m, field lengths of up to 10 m (infinitely expandable) as well as overhead cranes running above and below.

**Key Data for Special Cranes**
- Capacity from 80 kg to 10 t
- Length from 2 to 10 m
- Width from 2 to 15 m

### Yachting Cranes

Lowering or hoisting yachts safely in or out of the water – thanks to our yachting cranes, we have a suitable solution for every marina and every transport task.

### Rotomax® Load Turning Devices

ROTOMAX® load turning devices help in turning bulky and heavy parts safely and efficiently. For single or tandem operations, with or without automatic compensation or manual belt compensation, they ensure safety and compliance with differents load situations. Even speed controllers are available on request, and they are subject to our engineering department and development department for every solution.

**Key Data Rotomax®**
- Capacity from 1 to 200 t
- Belt distance fixed or manually/ electrically adjustable
- Special devices, e.g. for foundries
- Individual solutions tailored to your application

### Standard Slewing Jib Cranes

Set your production in motion.

### Special Cranes

Tackle every task.

### Yachting Cranes

Enable unlimited productivity.

### Rotomax® Load Turning Devices

Ensure safety.
